OPINION AND ORDER

The Customer Choice and Electricity Reliability Act, 2000 PA 141, authorized the creation of the Low-Income and Energy Efficiency Fund (LIEEF) administered by the Commission via grants to qualifying organizations. The purpose of the fund is to provide shut-off and other protection for low-income customers and to promote energy efficiency by all customer classes. The fund's original source of funding was the utilities' securitization savings that exceeded the amount needed to achieve a 5% electric rate reduction for residential and business customers. MCL 460.10d(7) provides for the use of a portion of the savings.

The Detroit Edison Company's (Detroit Edison) interim rate relief order issued on February 20, 2004 in Case No. U-13808 rolled the LIEEF funding requirement into base rates for Detroit Edison's electric customers and continued funding the LIEEF as part of the utility's cost of service. Consumers Energy Company's orders issued on December 22, 2005 in

Case No. U-14347 and November 21, 2006 in Case No. U-14547 have also made provisions for funding the LIEEF. In prior orders in this docket, the Commission established a framework for administering the LIEEF and procedures for considering specific proposals.

The Commission has issued orders approving 26 rounds of grants in the aggregate amount of \$463,099,401, and has administered funds specially allocated by the Legislature in the amount of \$25,000,000 from the LIEFF for a total of \$488,099,401.

On April 2, 2009, the Commission invited organizations to submit proposals to provide energy assistance to low-income households. By the April 22, 2009 deadline, the following organizations submitted proposals seeking a total of \$86,963,068: Department of Human Services; Downriver Community Conference; Health Emergency Lifeline Programs; Inter-Tribal Council of Michigan, Inc.; Lighthouse Emergency Services; Michigan Community Action Agency Association; Newaygo County Community Services; Society of St. Vincent de Paul; The Heat and Warmth Fund; and The Salvation Army.

The Commission expresses its appreciation to the applicants for providing thoughtful proposals. In awarding the grants, the Commission used the selection criteria outlined in the Request for Proposals.

Based on its review of the applications, the Commission awards the following grants:

- Department of Human Services - \$35,000,000 in total to provide direct assistance with energy bills for low-income households statewide divided as follows: \$25,550,000 to supplement the energy crisis portion of the State Emergency Relief program and \$9,450,000 for the arrearage payment program for clients participating in the Winter Protection Plan or similar plan that offers shutoff protection during the heating season.
- Downriver Community Conference - \$900,000 to provide direct assistance with energy bills for low-income households in Wayne and Monroe counties.
- Inter-Tribal Council of Michigan, Inc. - \$150,000 to provide direct assistance with heating bills and shut-off protection for low-income tribal families within Allegan,

- The Heat and Warmth Fund - \$5,000,000 to provide energy assistance to low-income residential customers throughout the state.
- The Salvation Army - \$6,000,000 to provide energy assistance to low-income households statewide.

For those grantees receiving less than requested in their proposals, the proportion of funds for direct assistance to indirect costs and overhead will remain the same as in their original requests.

The Commission directs the Commission Staff to complete the necessary grant agreement documents with the grantees. The Commission expects that, following approval by the appropriate agencies, the grant recipients will make these additional funds available to low-income customers as soon as possible. As always, the grants are contingent upon review and approval of the State Administrative Board.
